WORK EXPERIENCE

React Developer

HNGi8 (Finalist)

08/2021 - 10/2021

Achievements/Tasks

- Worked with the Frontend (React) team to build and deploy **ZuriChat (www.zuri.chat)** - A platform used by organisations and professionals to connect, interact, network and collaborate remotely.
- I Used **CSS MODULES** for general styling, **useContext Hook** for State management, **React.helmet** for **SEO**, **Axios** for **HTTP requests** and a number of other packages/dependencies (which was used to implement functionality)

Frontend Developer

ZURI INTERNSHIP

01/2021 - 06/2021

Achievements/Tasks

- Successfully built and deployed a High-school Learning Management System (LMS). During the course of this internship, I extensively used **React** to render web elements, **Git** for version control and **Redux** for state management
- I wrote Unit tests for my code using **Jest + React Testing Library**

Contact: Seyi Onifade (Organizer) - <https://twitter.com/theZuriTeam>

Frontend Developer

UpWork (Freelance)

01/2020 - 12/2020

Achievements/Tasks

- I successfully completed several projects from my clients. In addition to using **React** and **SCSS** to render web elements, I used **Google Analytics** to track and monitor client web traffic
- Debugged and refactored client's existing code_base inline with industry best practices

Frontend Developer

Google Developer Student Club (Volunteer)

09/2019 - Present

Achievements/Tasks

- Collaborated with other Developer Student Club members to design and build hostelCheckIn (a student apartment finder website for IMSU students) and ImsuPing (a web-based chat app for IMSU Students) using **React** and **Firebase**
- Participated in DSC Community Outreach programs where we spoke to non-member students and encouraged them to develop their tech skills
